Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 26 October 2006.

2a) This action is **FINAL**. 2b) This action is non-final.

3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) Claim(s) 41-54 is/are pending in the application.

4a) Of the above claim(s) _____ is/are withdrawn from consideration.

5) Claim(s) _____ is/are allowed.

6) Claim(s) 41-54 is/are rejected.

7) Claim(s) _____ is/are objected to.

8) Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

9) The specification is objected to by the Examiner.

10) The drawing(s) filed on _____ is/are: a) accepted or b) objected to by the Examiner.

Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).

Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).

11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 41 is rejected under 35 U.S.C. 102(b) as being anticipated by Knopse (U.S. Patent 3,481,133 A) for the reasons of record and with further comment below.

Knopse meets the claimed limitation of "simultaneously spinning from separate spinneret packs" (emphasis added, for newly-claimed limitation) because Knopse teaches (col. 4, lines 40-44) that while the different filaments (making up the mixed yarn) may be combined by extrusion from the same spinneret, it is generally more convenient to combine the separately prepared filaments at a later stage (emphasis added). This means that the different filaments are prepared separately (e.g., using different spinnerets) and they may also be prepared at the same time (i.e., simultaneously), or they may also be prepared at different times.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claims 41-54 are rejected under 35 U.S.C. 103(a) as being unpatentable over Knopse (U.S. Patent 3,481,133 A) for the reasons of record and with further comment below.

Knopse teaches (col. 4, lines 40-44) that while the different filaments (making up the mixed yarn) may be combined by extrusion from the same spinneret, it is generally more convenient to combine the separately prepared filaments at a later stage (emphasis added). This means that the different filaments are prepared separately (e.g., using different spinnerets) and they may also be prepared at the same time (i.e., simultaneously), or they may also be prepared at different times. Therefore, the claimed subject matter would have been obvious to one of ordinary skill in the art at the time the invention was made in view of Knopse.

Response to Arguments

5. Applicant's arguments filed on 26 October 2006 have been fully considered but they are not persuasive.
6. Applicant argues that Knopse does not disclose, teach or suggest simultaneous spinning of a first and second group of filaments. Examiner responds that Knopse does disclose, teach or suggest this aspect (col. 4, lines 40-44 of Knopse).

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1732

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
